

# Suyash Sanjay Khandalkar

React Developer · 3+ Years Experience · AWS Certified

📍 Pune, India   📞 9011280834   ✉️ [yashkhandalkar04@gmail.com](mailto:yashkhandalkar04@gmail.com)   [github.com/Suyash1602](https://github.com/Suyash1602)   [linkedin.com/in/suyash-khandalkar](https://linkedin.com/in/suyash-khandalkar)

## PROFESSIONAL SUMMARY

React Developer with 3+ years of enterprise experience at Cognizant, specialising in scalable component architectures, frontend performance optimization, and real-time UI systems. Built a React + TypeScript library component adopted across multiple product modules, and delivered a ~15% reduction in page load times through advanced memoization and state management strategies. AWS Certified with hands-on experience across the full MERN stack, GraphQL, and WebSocket-driven real-time interfaces.

## TECHNICAL SKILLS

|               |                                                                                     |
|---------------|-------------------------------------------------------------------------------------|
| Frontend      | React, TypeScript, JavaScript (ES6+), Next.js, Redux Toolkit, Zustand, Context API  |
| Performance   | React.memo, useMemo, useCallback, Lazy loading, Code splitting, Render optimization |
| Testing       | Jest, React Testing Library (RTL)                                                   |
| Styling       | Tailwind CSS, Material UI, HTML5, CSS3, Responsive Design                           |
| Backend       | Node.js, Express.js, GraphQL, REST APIs, WebSockets, Axios                          |
| Databases     | MongoDB, MySQL, Firebase                                                            |
| Tools & Cloud | Vite, Git, GitHub, Postman, Jira, Agile/Scrum, AWS (Certified)                      |

## WORK EXPERIENCE

### Software Developer — React

Jan 2023 – Present

[Cognizant Technology Solutions, Pune](#)

- Architected and maintained a React + TypeScript UI component library adopted across multiple enterprise modules, cutting feature development time by 30%.
- Led performance initiatives—applying React.memo and state normalisation—achieving a ~15% reduction in page load times.
- Designed a real-time chatbot interface using WebSockets for live operational feedback during cloud migrations.
- Integrated distributed REST APIs and microservices with robust error boundaries and loading state patterns.
- Wrote unit and integration tests using Jest and RTL, improving component reliability for shared modules.

### Software Development Intern

Feb 2022 – Nov 2022

[Cognizant Technology Solutions, Pune](#)

- Built a full-stack admin dashboard with JWT authentication and role-based access control using React and Node.js.
- Optimised Express.js APIs and MongoDB query patterns, improving average response times by ~20%.

## PROJECTS

**Airbnb Clone** | React, Tailwind, Redux, Node, MongoDB

[github.com/Suyash1602/airBNB-clone](https://github.com/Suyash1602/airBNB-clone)

- Developed a responsive platform with dynamic property search and booking-style interactions.
- Implemented Redux Toolkit for global state management and modular architecture.

**Finance Tracker** | React, Firebase, Node, PapaParse

[github.com/Suyash1602/FinanceTracker](https://github.com/Suyash1602/FinanceTracker)

- Built a secure management app with Google OAuth and CSV import/export functionality.
- Utilized React Hook Form for performant, validated transaction flows.

## CERTIFICATIONS

### AWS Certified Cloud Practitioner

Amazon Web Services

### AWS Certified AI Practitioner

Amazon Web Services

## EDUCATION

### B.E. Information Technology

Priyadarshini College of Engineering

Graduated 2022 · CGPA: 8.25 / 10
